

## Making Big Parts with Excellence | Integrity

### CAPABILITIES

- Multi Axis CNC Lathes & Mills
- Manual Lathes & Mills
- Balancing
- Boring
- Broaching
- Plating - Nickel, Silver, Zinc, Chrome
- Gear Cutting
- Grinding - Cylindrical, Surface, Precision
- Heat Treating - Carburizing, Gas Nitride, Hardening, Induction, Stress Relieving
- Aluminum Impregnation
- Threadrolling
- Welding

### GUIDING PRINCIPLES

Our customers are our partners. Our average customer tenure is greater than 20 years. At Larke Machine we look at each day as a gift to serve our customers better than the day before. We strive for excellence in all we do; and all we do and say is done with integrity.

Excellence & Integrity...it's what drives us.

### 50 YEARS & COUNTING

2024 marks 50 years of developing long term relationships and providing precision and excellence in everything we do. Our 5 decades worth of investing in the latest technology, experienced personnel, and operational processes has positioned us as a leader in CNC Manufacturing Excellence.

### BIG PART COMPANY

We have a reputation as the 'big part company'. Parts that are too complicated, too bulky, and too heavy is our sweet spot.

### OUR MOTO

*Achieving Excellence through Integrity.*

- Excellence: Extremely high quality.
- Integrity: The quality of being honest and having strong moral principles.

# INTEGRITY PRECISION EXCELLENCE

**CONTACT US**

## Machine Capabilities:

- CNC Lathes
  - Max 28" Diameter x 60" L
- Manual Lathes
  - Max 18" Diameter x 80" L
- CNC Vertical Mills
  - Max 55"(X)x27"(Y)x25"(Z)
- Manual Mills
  - 36"(X)x12"(Y)x16"(Z)

## Added Capacity | Ready to Grow with You

- New Multi-Axis CNC Machines to existing fleet
- Expanded Machinist team with >20 years experience
- 6S Lean Operational enhancements
